

Amendment 73 Factual Summary for Pueblo City 60 School District

What is Amendment 73?

Amendment 73 (A73) is the result of the [citizen's ballot initiative #93](#), known as *Great Schools, Thriving Communities* (GSTC). A73 is a statewide school funding initiative that will increase income taxes for 8% of tax filers and for C Corporations, while decreasing property taxes for business property owners, farmers and ranchers. It will:

- **stabilize and increase funding** statewide for preschool through twelfth grade (P-12) public education
- create the **Quality Public Education Fund** that can only be used for public education, is exempt from the TABOR revenue limit, must be used to supplement General Fund appropriations for P-12 public education, and is adjusted each year for inflation up to 5 percent

How would it impact funding for Pueblo City 60 School District?

Based on the most recent CDE estimates for 2018-2019, Pueblo City 60 School District would receive **\$26.7 million in additional ongoing revenue** if the initiative were implemented for the 2018-2019 school year.

2018-2019 Per Pupil Budget Stabilization Factor for Pueblo City 60 (the reduction in state funding to the local district in order to achieve budget savings)	2018-2019 Additional Per Pupil Funding for Pueblo City 60 with A73
-\$767	\$1,564

The A73 estimate is based on current student count and demographics that are subject to change. Funding estimates will be revised when updated data is released.

How is funding stabilized and raised?

A73 is a property tax decrease for nonresidential property owners and it stabilizes the local share of school funding by permanently setting property tax assessment rates. A73 will prevent future reductions to the residential assessment rate (RAR) as currently required by the Gallagher Amendment. It permanently sets the RAR at 7% (currently 7.2%), and decreases and permanently sets the assessment rate at 24% (currently at 29%) for business property owners, farmers and ranchers — **for property taxes levied by school districts**.

A73 is an income tax increase for 8% of Colorado tax filers with taxable income (*income after exemptions and deductions*) over \$150,000. In addition, A73 increases the state corporate income tax rate by 1.37% for "C" Corporations (*does not include LLCs, sole proprietorships and S corporations*). A73 raises \$1.6 billion in revenue that is deposited in the Quality Public Education Fund.

How will the revenue be spent?

The Pueblo City 60 School Board passed a resolution in support of Amendment 73 and intends to use the new funding in the following ways: hiring and retaining highly-qualified teachers and staff; providing more competitive compensation and benefits packages; reinstating various educational programs; purchasing new textbooks; addressing deferred maintenance; increasing school supply allocations; supporting additional professional development and training; reestablishing critical cash reserves, while acknowledging that priorities will evolve as community engagement is an ongoing process and revenue from Amendment 73 is annual funding.

How are property taxes for other local governments impacted?

A73 cuts property tax assessment rates *only* for property taxes levied by school districts. Property taxes levied by other local governments are unaffected by A73.

Will the drop in property tax rates hurt school funding?

No. Setting the residential assessment rate at 7.0% and the nonresidential assessment rate at 24% for mills levied by school districts, the measure decreases local property tax revenue to fund P-12 public schools in FY2019-2020. However, under the School Finance Act, each district's local share is calculated first, and state aid makes up the difference between the local portion and the total funding need identified through the formula.

What percentage of tax filers will be impacted in Pueblo county and by how much?

The income tax change will impact tax filers with taxable income over \$150,000. Income of \$180,000 is estimated to equate to \$150,000 in taxable income (income after deductions and exemptions). According to the US Census Bureau data, Pueblo county tax filers fit this profile:

- **Average income: \$55,932**
- **Percent of taxpayers with income between \$150,000 and \$200,000: 3%**
- **Percent of taxpayers with income over \$200,000: 2%**

The following scenarios provide examples of local Pueblo City 60 tax filers with various income levels, home values and business properties:

*Ranges are used above as property tax savings in relation to the current tax rates vary depending on the language used in school districts' local mill and bond elections. Visit www.cosfp.org/impactcalculator to utilize the A73 Impact Calculator to input your own scenario.

Arguments For

- The state needs a sustainable source of revenue to adequately and equitably fund public education.
- The measure provides property tax relief for business property owners, farmers, and ranchers who have paid an increasingly higher proportion of property taxes compared to residential property owners.
- One of government's most important functions is to provide children with a high-quality education.
- Stabilizing the local share of required school formula funding and creating a dedicated source of state revenue for education provide additional flexibility for the state to use more of its general operating budget on other core programs, such as transportation, public safety, and health care.

Arguments Against

- The measure imposes a tax increase without any guarantee of increased academic achievement.
- Increasing the state income tax rate could negatively impact the state's economy. Businesses will have less money to invest in their workers and individuals will have less money to spend, save, and invest.
- The measure complicates an already complicated property tax system. By creating one assessed value for school districts and another assessed value for all other local taxing entities, the measure will lead to confusion among taxpayers and further complicate tax administration for state and local governments.
- The measure does not require the state legislature to adjust the income tax thresholds to account for inflation.
