

Capital Construction

We believe that having quality educational facilities that provide a suitable environment for high performing educational programs is essential for our students and community. It is the policy of the Board of Education that the construction of new school facilities will:

1. Be designed and constructed to efficiently house students and staff in permanent facilities that are conducive to optimal teaching and learning.
2. Be appropriately located to provide optimal use during the life of the facility.
3. Reflect the value placed on instruction by the school district community.
4. Be constructed in a manner that complies with the District's fiduciary responsibility to the community.

The Superintendent shall be responsible for developing the process and procedures used in managing and monitoring school facilities capital construction.

Adopted: October 22, 2019
